Gentlemen:

A bulletin on CHURCH AND RACE put out by the Department of Christian Social Relations, Division of Christian Citizenship, of the National Council of the Episcopal Church, has recently come to my attention. The Rev. Arthur E. Walmsley is listed as Executive Secretary of this group. A copy of the bulletin that I have says, among other things,

"Church officers and laymen are encouraged to take part in local direct-action demonstrations....It is absolutely essential that picket lines be integrated. White Christians are unequivocally urged to join Negroes on the picket line. Bishops, other Church officers, and laymen are urged to make this kind of Christian witness at this time...."

The bulletin states further: "The Rt. Rev. Arthur Lichtenberger, Presiding Bishop of the Episcopal Church, was recently appointed Chairman of the new Commission on Religion and Race of the National Council of Churches of Christ in America....Its immediate and continuing aims are: 1. The encouragement of negotiations, demonstration, and direct action in places of particular crisis. 2. The mobilization of resources to encourage legislative and executive acts to bring" total and massive integration. "3. The mobilization of the resources of the Churches in order to put their own house in order by desegregating all of the institutions of the Church...." This would include St. Mary's College, Thompson Orphanage, etc., of course. Among the people serving on the Commission with Bishop Lichtenberger are Dr. Martin Luther King, Eugene Carson Blake, and Ralph McGill. The Rev. Mr. Walmsley, mentioned above, is reported to have been affiliated in one way or another with a number of questionable organizations, one of them being the Emergency Civil Liberties Committee, which the House Committee on Un-American Activities says in its Guide to Subversive Organizations and Publications "...actually operates as a front for the Communist Party." Our Episcopal Church is a member of the National Council of Churches and supports it financially.

Bishop Baker, of the Diocese of North Carolina, has been working with the National Council of Churches. I have seen a statement over his signature to the effect that he has been a member of the General Assembly of the National Council of Churches a number of times and that he has been serving under appointment of Bishop Lichtenberger as a member of the General Board of the National Council of Churches. Bishop Baker has said that the National Council of Churches "is essential to the total mission of the Christian Church."

- Page 2 -

A short while ago I saw a leaflet entitled AN APPEAL TO THE CONSCIENCE OF NORTH CAROLINIANS from the NORTH CAROLINA CONFERENCE ON RELIGION AND RACE. It was unsigned, but it had come in an envelope showing the return address as OFFICE OF THE BISHOP COADJUTOR, 802 Hillsboro Street, Raleigh, N.C. The Bishop Coadjutor is Bishop Fraser. This leaflet stated that we must begin action that "requires us to seek solutions free from racial or religious bigotry to the problems of educational opportunity, merit employment, public accommodation, housing, recreation, safety of the person, and unrestricted voting." This is an indication that Bishop Fraser is using his office to promote total and massive racial integration. The leaflet states, "Bigotry, hatred, violence, and doctrines of racial superiority have no place in our religious traditions." We would agree with much of this, but the insinuation is that anyone who wishes to preserve the white race and culture is moved to do so by bigotry, hatred, etc.

I have heard that Bishop Fraser was one of four Episcopal bishops to represent the Episcopal Church at a national conference on religion and race held in Chicago several months ago. He came back home to appeal to our consciences. My conscience tells me to try to preserve the white race and white culture for my children and grandchildren, and I don't appreciate him using the Church and the Church's money as means to promote his race philosophy.

A leaflet circulated by the National Council of the Episcopal Church has been called to my attention recently which gave grave warning to Christians who support segregation by either action or inaction, and it called attention to the World Council of Churches' statement which reportedly said that Christians failing to work to end segregation are as guilty of undermining their faith as those actively engaged in supporting segregation; so, apparently, if you are not actively supporting integration, the authorities in the Episcopal Church consider you to be guilty of undermining the faith.

We hear that progress with racial integration is going on at Vade Mecum. Soon, according to the schedule set up, it will be totally integrated. They had one camp integrated last summer that was integrated ahead of schedule, I am told.

I have the distinct feeling that there is not much room in the Church for people who feel as I do. I feel that people who think the way I think are not wanted. I don't know what to do, but something ought to be done. I wonder if there are many people who feel as I do. I know of some who do.

Sincerely yours,

B. I. Sills

The Episcopal Church belongs to the National Council of Churches and supports it financially.

NCC's POLITICAL ACTION (an editorial taken from THE NEWS AND COURIER, Charleston, S. C., October 20, 1963)

"The National Council of Churches has opened a new drive on the political front with acceptance of a report charging that foes of compulsory integration of the races employ 'both a Gestapo and extra-legal mob action to enforce their will.'

This report was presented to the NCC board by the Rev. Dr. Robert W. Pike, executive director of the Commission on Religion and Race, in behalf of Protestant Episcopal Bishop, Arthur Lichtenberger, chairman of the commission.

In addition to accusing state and individuals of totalitarianism, the NCC commission reviewed its own activity. The commission said that besides recruiting marchers to Washington last Aug. 28, it provided \$50,000 in bail bonds for more than 900 others in demonstrations this summer. It also reported taking part in demonstrations in several parts of the South.

The NCC commission report called for increased activity in the racial field. The Rev. Martin Luther King, Jr., a member of the commission, admitted, however, that the summer's demonstrations had produced some resentment among white Northerners and had brought a temporary setback to his movement.

While there is rapidly increasing awareness of the NCC's involvement with political groups such as Martin Luther King's movement, it must come as a shock to many Protestants to find a church organization resorting to reckless and wholly unsubstantiated charges. Churchmen throughout the nation are likely to be indignant at the action of the NCC commission in comparing resistance to integration to the terrors of Nazi Germany.

As a matter of fact, the shoe is on the other foot. The correct analogy between the two historical situations is the demand for compulsory integration, enforced by revolutionary methods. The demonstrators which Martin Luther King has trained, and which the NCC is supporting, remind many citizens of the Brown Shirt gangs that the Nazis used to break up law and order in Germany in the 1930s.

To find the NCC giving financial aid and moral comfort to self-proclaimed advocates of a "Negro revolution" is, in the eyes of many concerned churchmen, likely to destroy completely the Council's claim to being a religious organization. The NCC increasingly is revealed as a mask for a political faction."

Do you support a church that supports the National Council of Churches?

At approximately 10:32am this date, [REDACTED] Los Altos, California, telephone [REDACTED] called this office and advised that she is the Legislative Chairman of the Los Altos School District Parent-Teacher Association and that the President of the District Association had turned over to her for checking a publication called "Heads Up" published by one, KARL PRUSSION, who identified himself as "a former undercover officer for the FBI."

[REDACTED] explained that this publication had originally been received by the headquarters of the Fourth District California Congress of PTA in Santa Ana, California, which forwarded it to the headquarters of the Sixth District in San Jose, California. The San Jose headquarters sent it to the President of the Los Altos School District PTA because it contained an article regarding persons in that District. The President gave the publication to [REDACTED] for her to determine the validity of MR. PRUSSION's claims.

KARL PRUSSION has furnished information to this office of the FBI in the past and was paid for his services. He has never been an Agent of the FBI, but only a paid informant. He no longer furnishes information to this office and the FBI cannot make any comment as to the validity of his published charges. KARL PRUSSION's testimony under oath before the House Committee on UnAmerican Activities as to his role in the Communist Party will be found in the proceedings of that Committee for 1960 beginning at page 2031.

[REDACTED] was grateful for this information and stated that she would research the cited proceedings of the House Committee on UnAmerican Activities in order to make a report on instant publication to her District PTA.

'Expert' unreliable

PERVANT admirers of assorted committees on un-American activities have for heroes various persons formerly active in the Communist party, who have attained minor sainthood by giving up their earlier attachments and becoming "expert witnesses."

These witnesses are considered by some people to be of more credibility than those who never were stupid or treacherous enough to be Communists. And when they put the finger on a defendant, saying "this man was once one of us," he's pretty well dead.

Prominent among these former Communists in this part of California was one Karl Prussion, who has made quite a career out of his change of heart. He has published a periodical entitled "Heads Up," has been a witness before the House Un-American Activities Committee and a frequent speaker before service clubs on the menace of communism.

But Mr. Prussion—who has lately removed himself from Los Altos to the more salubrious climate of San Diego—has lost just a little shine from his gleaming credentials of "FBI counterspy within the Communist conspiracy."

Two teachers, Mr. and Mrs. William Mack, were accused of signing false non-Communist oaths. Their teaching credentials were revoked, principally on testimony by Prussion that they were Communists. They have appealed.

In the district court of appeal, the Macks' attorneys attacked Prussion's credibility as a witness. In the reply brief, signed by the California attorney general and by the attorney for the state board of education (whose job it is to defend the credential revocation), it is stipulated by the state, "believing it to be in the public interest, that the witness Karl Prussion is an unreliable witness and that his testimony be eliminated from consideration by the court in deciding this case."

Prussion 'An Unreliable Witness,' Says Gen'l Mosk

The ACLU is representing Mr. and Mrs. William Mack, former teachers accused of signing false oaths, in a case now pending in the District Court of Appeal challenging the revocation of their teaching credentials. The chief witness against the Macks at the hearing on their credential revocation was one Karl Prussion, self-styled "FBI counterspy within the communist conspiracy." Prussion's credibility as a witness was strongly attacked in the ACLU's opening brief filed with the court, and now in the reply brief signed by Attorney General Stanley Mosk and Deputy Attorney General Wiley Manuel, the State Board of Education's attorneys, it is stated: "The Attorney General stipulates, believing it to be in the public interest, that the witness Karl Prussion is an unreliable witness and that his testimony be eliminated from consideration by the court in deciding this case."

Professional Ex-Communist

Prussion publishes and edits a periodical entitled "Heads Up" and has been a witness before the House Committee on Un-American Activities, the Assembly Interim Committee on Constitutional Amendments, and is a frequent speaker on the menace of Communism before service clubs and similar organizations. He was formerly a resident of Los Altos but has evidently found a more fertile field for his activities in San Diego where he now resides. It is hoped that his repudiation by the government agency which attempted to use him as an expert witness on communism will mark the end to one of the most extremist demagogic careers since the vocation of ex-communist was discovered.—M.W.K.

FORMER SF 1740-S

At 2:33 p.m., 7/15/63, JOSEPH A. SIZOO telephonically contacted ASAC PAUL O'CONNELL and gave the following instructions concerning an immediate and urgent interview with the above captioned former informant, who must be contacted at once and this matter resolved. If possible, information should be put in a teletype and if that would be too long, it should be put in a telephone call.

KARL PRUSSIAN was quoted by Alabama Governor WALLACE at hearings last week as saying "MARTIN LUTHER KING belonged to more communist fronts than anyone in the United States."

SIZOO wants PRUSSIAN interviewed vigorously and thoroughly to determine if he made (1) any public statements to this effect at any time or (2) any such statement to anyone else and (3) if at any time under any circumstances he made such a statement, what does he have to support it.

PRUSSIAN should also be questioned concerning the following:

On 11/6/61, a woman from *K*lispell, Montana, wrote a letter to the Bureau in which she stated that a paper published by the Missouri Synod Lutheran Church at Ridgecrest, Kern County, California, published a paper in which it quoted KARL PRUSSIAN in an article as saying that MARTIN LUTHER KING belonged to more CP fronts than anyone in the United States except W.E.B. PRUSSIAN should be interviewed along the same lines - did he make such a statement, was he quoted correctly and what basis did he have for making such a statement if he did make it.

Further, PRUSSIAN should be interviewed in detail to determine what does he know of any communist activity or associations on the part of MARTIN LUTHER KING. If he has such knowledge, what is the basis for his knowledge.

The latest information available in the office indicates that PRUSSIAN lives at 596 Panchito Way, Los Altos, and has unlisted telephone number Whitecliff 8-2897. He lists himself as being self-employed in connection with Lorelei Homes, a paint store and a blueprint reproducing business.

SA WILDER should handle this immediately and prepare a teletype to the Bureau answering the questions.

ADDENDUM:

SA WILDER advised at 4:15 p.m. that Mrs. PRUSSION stated that PRUSSION would be in San Diego indefinitely perhaps for more than a week and could be reached through the following:

[redacted] San Diego 6, b6

At 4:15 p.m. the contents of this memo were telephonically given to SAC WILLIAMS of San Diego and simultaneously dictated to his secretary.

A teletype has been sent to the Bureau saying that this was done.

Mr. Frank Price,
Special Agent in Charge,
Federal Bureau of Investigation,
422 Federal Building, Civic Center,
San Francisco, California.

Dear Frank:-

It is my recollection that one Karl Prussian of Los Altos, California, was a member of the Communist Party and several years ago did some undercover work for the F.B.I., office in San Francisco. Since that time he has apparently been making his living by writing anti-Communist articles and speaking before various groups. I have heard a number of his talks which are somewhat dramatic and not entirely factual. He has a crew working with him, and I have seen them "pass the hat" for contributions to his expenses.

Some months ago I attended one of his talks at the Live Oak School in Saratoga, and he was introduced by Dr. John Cox, a reputable physician in Saratoga, as a "former undercover Agent of the Federal Bureau of Investigation." Mr. Prussian has received a lot of publicity locally, and refers to himself in his articles and press releases as a "Counterspy for the F.B.I."

Some months ago, you may recall, he published a pamphlet for the Republican campaign group, "exposing" the Democratic candidates. The Republicans repudiated this pamphlet which was later used by the Democrats to discredit the opposition. He has been highly critical of our State Department and some of our Governmental operations.

Today, there appears on the pages of the Saratoga News, dated March 6, 1963, an announcement that Prussian is speaking before the American Association of University Women, at Montalva, Saratoga, California, on March 18, 1963, on "The Communist Threat from Within." This article refers to him as a "counterspy for the F.B.I." I don't know whether the Bureau would want to set the record straight by writing Sherman Miller, Publisher of the Saratoga News, 3rd and Big Basin Way, Saratoga, California, relative to Karl Prussian's alleged representations. Mr. Miller is a good friend of mine, has written a number of articles very favorable to the Bureau, and I am passing this clipping on the subject of Karl Prussian to you for such attention, if any, that it may warrant.

With kindest personal regards,

Sincerely,

Louis D. Wine

CARL PRUSSION's testimony before HCUA was reviewed and it is noted he testified substantially as reported mentioning [REDACTED] four times, the testimony being recorded on pages 1923, 2043, 2047 and 2048 in the GPO printed testimony. On pages 2043 and 2047, he qualified his testimony with the statement, "I believe". Informant reports were reviewed and it is noted that PRUSSION made no mention of [REDACTED] employment nor did he indicate he resigned from the CP "so he could continue his work and retain contact on the upper level" in his written reports. The only mention in his reports of [REDACTED] resignation is contained in his written report dated 12/28/56 filed in San Francisco file 134-7A-73A (24). The pertinent portion of that report is as follows. This was an account of a meeting of his CP club:

[REDACTED] chairman of the meeting, announced that the [REDACTED] had resigned from the Party "because the Party no longer served the immediate needs of the American working class. They are for dissolution of the Party". This was discussed with PRUSSION 12/18/62 and he advised as follows:

Prussion 'Banned' At Awalt

Karl Prussion, onetime Communist and self-styled informer for the FBI, claims Awalt High School officials "banned" him from addressing a campus club.

Prussion, scheduled to address the 16-member Foreign Affairs Club today, said he would still deliver his talk on the "Threat From Within" this afternoon in the home of the club president.

Awalt High principal Gordon Ariett said Prussion's appearance was cancelled because it was not cleared with school officials.

He said the school district also maintains a policy of having both sides represented when a "controversial" speaker appears on campus.

Prussion said this was just an "excuse." He claims he has been the only speaker at two programs given at Los Altos High School.

"But," he added philosophically, "I'll probably have three times as many students turn up for my talk — as soon as something is banned, it creates a lot of interest."

FBI's Red Informer Prussion Barred

Karl Prussion, controversial ex-communist turned FBI informer, has been barred by the principal from a scheduled appearance at

Awalt High School in Mountain View.

Awalt Principal Gordon Arlett said Prussion's talk before a student Foreign Affairs Club would not be allowed because of a district policy regarding the handling of controversial speakers.

The ex-FBI man, however, said he had spoken twice at Los Altos High School in the same district.

Prussion appeared in the Sequoia Union High School District last year when he spoke before the Junior Statesmen of America at San Carlos High School.

"There was no reaction whatsoever, afterward," said Principal Philip S. Maslin, "but there was a quarrel between him and a listener during his appearance."

Prussion also has made numerous non-school appearances in San Mateo County, including a well-publicized speech last year at the Veterans Memorial Building in Redwood City.

Although he won't be allowed on the Awalt campus, Prussion announced that he will still speak on anti-Communism in the home of the club's president.

Arlett said district policy leaves it up to the principal to decide whether a speaker is controversial.

He said the policy allows controversial speakers on the campus only if the subject is contingent to the students' learning process and if the opposite point of view is presented at the same session.

In this case, Arlett said, Prussion is the only speaker and therefore is presenting only one point of view. He said his decision does not prevent Prussion from speaking on other occasions at the school when his appearance fits the policy framework.

'Too Controversial'

Los Altos Bars FBI Spy's Talk

Karl Prussion, the former Communist who became an FBI informant has been refused permission to speak at a Los Altos high school, it was disclosed yesterday.

Prussion was to have addressed the World Affairs Club at Awalt High School today on the subject, "The Threat From Within."

On Tuesday, however, he was notified that the invitation of two months standing had been withdrawn on orders of Dr. Gordon N. Arlett, Awalt principal.

The student group, headed by Caron Miller decided they would hear Prussion regardless, and scheduled his speech for a private residence after school hours.

DIFFERENT LEVELS

"I called Doctor Arlett and reminded him that other speakers, both conservative and liberal, had appeared on the Awalt campus in the past," Prussion said. "I asked him if the school was not the market place for ideas."

"He said 'yes, but not in your case.'"

Doctor Arlett took issue with Prussion on what precisely was said.

"I concurred that a campus is the market place for ideas at the college level but not necessarily at the high school level, considering the age of the students," he said.

Doctor Arlett said he regarded Prussion as a controversial figure who had been scheduled as a speaker without proper authorization.

During the recent political campaign Prussion was the source of a pamphlet charg-

ing California Democrats with being soft on Communism. The pamphlet was barred from the mails by court action.

The principal insisted Prussion's booklet had no bearing on his decision that Prussion was a controversial figure.

"I felt that the subject was such that both sides of the question should be represented. I don't feel that students of high school age should be subjected to just one side of any question or issue."

"Perhaps at some future date Mr. Prussion will appear here."

School Bars Prussion

TALK

Karl Prussion, undercover FBI informant for 12 years, will not be permitted to make his scheduled speech today to a student club at Awalt High School, Los Altos, principal Gordon Arlett said yesterday.

It is simply school policy to hear both sides of a controversy—or neither side, the principal explained.

Prussion was the author of a pink-covered booklet that was singled out on Monday as a prime example of unfair political tactics by Bruce L. Felknor, executive director of the Fair Campaign Practices Committee Inc.

Felknor expressed particular irritation at distorted photographs in the booklet, which made Governor Edmund G. Brown appear to bow obsequiously toward Soviet Premier Khrushchev. The booklet was sold before the November gubernatorial election.

INVITATION

"Some of our students had extended this invitation to Mr. Prussion without any authorization," Arlett said. "And because he is a controversial figure, we had to call it off."

"Understand, he has not been denied permission ever to speak in our school. But before we deal with any controversy, we must have a plan to present more than one side. We must have arrangements in advance, to hear both sides."

The canceled speech was to have been given at 2 p.m. today to the student World Affairs Club, a school-sponsored organization.

Prussion, complaining that the speech was banned "at the 11th hour," said club members would meet to hear him after school today, at the home of a student, Caron Miller.

His topic, he said, will be "The Communist Threat From Within," a subject he has explored in numerous appearances as a witness before the House Committee on Un-American Activities.

Principal Arlett said the school would have no objection if students chose to meet, as individuals, off campus. But the World Affairs Club "cannot meet off campus as a club," he noted.

The most and the dirtiest

CALIFORNIA abounds in people, of whom it is collecting more every day. While some of us have reservations about our record-breaking population, it is hard to see how anyone can be proud of another distinction awarded California this week.

Our state's political campaigns are the dirtiest in the nation, according to the nonpartisan Fair Campaign Practices Committee.

The 1962 race for governor was a filthy one, the committee concluded—and although the dirt was not all thrown by one side, the three campaign documents cited were attacks on Gov. Brown, not put out by responsible Republican organizations but by fanatical hangers-on who were a sincere embarrassment to the G.O.P.

Worst of them all, the committee says, was a booklet entitled California Dynasty of Communism. We'll agree that it was dirty indeed; we have saved a copy, sent to us by a reader who thought it was just great.

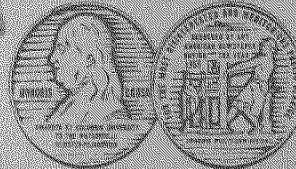

"Brown is a Red appeaser," proclaims the booklet. Beneath that caption appears a statement which the governor never made: "Premier Khrushchev, we who admire you, we who respect you, welcome you to California." Alongside is a picture of the governor bowing, his hands clasped—apparently in obeisance to Khrushchev, whose photograph appears opposite.

Actually, the Brown picture was cropped from a news photo in which he was greeting an Oriental visitor in Oriental style.

It's easy to explain away some of this dirty stuff by saying that, along with all the more rational migrants to California, we're attracting more than our share of screwballs. That's partly true. Unfortunately, however, a lot of longtime Californians are among the most irresponsible. Author of the smear pamphlet mentioned above, for instance, is one Karl Prussian, who was a Carmel taxi driver some years ago. He is now a professional "exposer of Communists," and advertises himself as "former FBI counterspy within the Communist conspiracy." He neglects to make it plain that he was a member of the Communist party, and only later decided to work as an FBI informer.

Whatever the source, it's plain that we have problems with our increasing population. While we may not be able to get out of the distinction of being the most populous of the 50 states, it would be mighty nice if we could shuck the title of dirtiest-campaign state.

Ban on School Speaker

To The Examiner:

An eye-opening contrast appeared in The Examiner, Dec. 6. Gordon Arlett, principal of Awalt High School of Los Altos, refused Karl Prussion, former Communist turned FBI informant, permission to speak at his school, stating, "I don't feel that students of high school age should be subjected to just one side of any question or issue."

On the other hand, the Berkeley Chapter of the American Association of University Professors has asked UC to allow Communist speakers on the campus, saying, "We don't love Communists. This (request) is just a statement of educational policy," and further deploring the UC ban on Communist speakers because "it restricts the educational function of the faculty."

Principal Arlett treats his students as a group of starry-eyed nitwits unable to cope with the hard facts of the outside world, even by once-removed contrast. How are they ever going to learn?

Like the UC professors, I dislike Communism, but nevertheless think the professors are correct in their policy, which incorporates at least a modicum of respect for their students' intelligence.

HARRY A. HOBBS,
Knightsen.

Karl Prussion has been denied the right to speak at Awalt High School in Los Altos.

Mr. Prussion... has long been an advocate of the denial of free speech to "Communists, their fellow travelers, sympathizers, and dupes." He has unjustly attacked many Americans, calling loyal citizens supporters of the Communists. The subject of the planned speech, "The Threat From Within," would probably be another tirade of unjust abuse as he has delivered in the past.

However, despite personal feeling about Prussion and his teachings, I feel that there is absolutely no justification in the refusal on the part of school authorities to allow him to speak. . . . Everyone has the right to free speech. . .

PALO ALTO TIMES, MONDAY, NOV. 5, 1962

EDITORIALS**Reviewers flay Prussion booklet**

Some of ex-Communist Karl Prussion's writing at last has been branded effectively for what it is.

His booklet titled "Communist Dynasty in California" has been condemned as "highly unethical" by the State Fair Campaign Practices Committee, composed of four distinguished members of each major political party. The committee reported:

"It is an unwarranted and vicious attack on Gov. Brown and the committee deems it to be extremely offensive. We must at the same time point out that the Republican State Central Committee already has stated it has no connection with this pamphlet and characterized it as scurrilous and trash. Mr. Nixon has stated he considers the pamphlet disgraceful."

Prussion has gained an audience mainly because he is a reformed Communist who has acted as an informer for the FBI and who has been a frequent witness before legislative committees on un-American activities. Since he moved to Los Altos he has made many accusations, in talks and in pamphlets, about the alleged Commu-

nist activities of a large number of people.

FBI Director J. Edgar Hoover warns citizens in his new book, "A Study of Communism," against conducting private investigations and circulating rumors about subversive activities. "Vigilante action weakens our free society," he observes. "It is just as important to protect the innocent as to identify our enemies."

Hoover then adds:

"Reckless charges against individuals and false statements about the nature of communism and the extent of its penetration into various areas of our life serve the cause of communism by creating disunity among Americans.

"Too often, the label 'Communist' is used indiscriminately against those whose views are unpopular or merely differ from those of the majority. Too often, every adverse development is attributed to communism.

"Misidentification of communism can lead only to disunity and irrational fear. Moreover, it divides us as a nation at the very time we need unity and strength to face the actual and very real threat of communism."

A Mixup —And Regrets

An unfortunate mixup in photographs in some editions of the News Call Bulletin Tuesday may have implied that Nixon and Republican state headquarters were distributing a booklet containing cropped photos erroneously branding Governor Brown as a "red appeaser."

As a matter of fact, Richard M. Nixon had repudiated this pamphlet and called it "disgraceful" immediately upon learning of it. So did state Republican Chairman Caspar W. Weinberger and other GOP officials.

The booklet was written by Karl Prussion, a right-wing spokesman who has no connection with the Nixon or Republican organizations.

THE INTENDED illustration and printed caption was of a postcard involved in a suit here.

The published illustration was of a photo of a page from Prussion's booklet on a poster prepared by Northern Democratic Chairman Roger Kent. Lettering on the poster said "Nixon-GOP state headquarters distributes" the booklet.

A news story accompanying the illustration, however, called attention to the repudiation by Nixon and GOP leaders and added that Kent "conceded he had no direct evidence to link it to them."

The News Call Bulletin regrets the error and any possible implication that Mr. Nixon or Republican Party officials had any connection with the Prussion booklet.

"ELIZABETH NICKOLAS reported that the Northern Calif. district of the Party is to raise \$2500.00 for the Hall, Davis defense fund. Santa Clara County is to raise \$200.00 or more. Palo Alto pledged \$100.00. WALTER HARJU said he would raise \$25.00 FRANK SCHNEIDER \$25.00, the SHAPOVLOVS \$20.00.

"ELIZABETH NICKOLAS said we would wait to discuss the coming elections until the next meeting. She then brought up the Francis bill #24. She said San Jose plans to have a conference next month against the bill. An open one I believe. She then said that the Francis bill is considered so dangerous that the district is having a full time (which means paid) organizer and that Nat. Committee is sending a full time organizer also.

"Then the club started to discuss the Peace meeting of Saturday when led to the USSR resuming testing. They all agreed that was necessary except MARY WILSON and [REDACTED] MICHAEL SHAPOVOLOV said that it was all right to discuss it but Party members must realize that when the Communist Party took a definite stand then all Party members must go along with the decision.

"They MICHAEL SHAPOVALOV said that he had something to discuss with the group. He said ISOBEL CERNEY had brought him a copy of one of KARL PRUSSION's paper and a copy of a letter ISOBEL CERNEY sent to some man belonging to the Quaker Church which she had been allowed to join in Georgia. I think the way she received it was that this man sent it to [REDACTED] and she sent the paper to ISOBEL (can you follow??) So first MARY WILSON read KARL's paper then she read a copy of the letter ISOBEL sent to the man in Georgia. Well I never heard such a thing in my life-- all full of the love of Jesus Christ and then the stupid idiot said that she knew the SHAPOVALOVS- that they were saints and that MICHAEL had studied under Lenin!! Then she mentioned ED BECKS what fine work he was doing with the young negro students etc. etc. Well some one suggested she should get a job with KARL PRUSSION. The outcome is that MICHAEL SHAPOVALOV and MARY WILSON are to see her in a few days and tell her that she is no longer a member of the Communist Party. She did send \$25.00 for dues. Reference is made to serial 514 which has to do with USA CECIL F. POOLE furnishing SAC PRICE with two letters sent to him by the Assistant Attorney General.

I contacted USA POOLE telephonically on 8/27/62 and told him that Mr. PRICE had reviewed the material and that I had reviewed the material that he furnished. Also, that Photostats of the material were made and furnished to the Bureau for their information in the event any inquiries on this matter were received by the Bureau.

I reminded USA POOLE that PRUSSION was a former informant and that this office no longer had any contact with him. Also, at the time he was discontinued, and on the few periodic contacts we have had with him since that time, he has always been reminded to clearly state what his position is when making any public appearances - that he was not a Special Agent for the FBI but was an informant.

USA POOLE stated that he believed that he was going to get further material on this matter, that someone had mentioned having a tape recording, and that if and when he received it, and if it were pertinent, he would forward it to this office.

He thanked me for contacting him.

The material that he furnished has been returned to him.

Reurmemo 6/5/62.

As you state, PRUSSION has been instructed never to represent himself as an FBI employee. Review of the file in this case since he publicly disclosed himself as a former paid FBI informant, during the HCUA Hearings at San Francisco, 6/17-19/59, confirmed that he has not so represented himself. It should be noted that all the publicity re the HCUA hearing made it clear that he was a former FBI informant. Subsequent news releases, as contained in the file, almost without exception, describe him as "informant, "counterspy," and a few call him a former undercover agent. You will note the following publicity in leading newspapers of the area quoting him or the person who introduces him as a speaker identify him clearly as a former informant:

SUBJECT: KARL PRUSSION

I constantly receive reports from different people to the effect that KARL PRUSSION, former FBI security informant, is representing himself as an FBI Agent. In the past, efforts have been made to pin down the specific representation but it always appears that PRUSSION has been strongly admonished not to say he is a "former employee" or a "former FBI Agent."

On 5/31/62 I received a call from ARTHUR ALARCON, Pardon Attorney for Governor BROWN and a personal acquaintance of mine. He asked me generally if it was a violation of law for someone to represent themselves as an "undercover Agent for the FBI." I told ALARCON of the elements of the Federal impersonation statute and explained that many former FBI informants had been misunderstood when they had written books or made speeches and people improperly concluded that they were former FBI Agents although the informants had never said so and had never been employees of the FBI. I told ALARCON that it is a technical question as to whether representing someone as an undercover agent for the FBI would be a violation, and ALARCON said he understood this and mentioned that the person he had in mind was KARL PRUSSION and that he would probably submit something "through channels."

According to a press release of April 23, 1962, the officers are [redacted] and Karl Prussion, all of whom have spent considerable time in undercover work. They are all former Bureau informants. [redacted] is Executive Director and he is quoted in the press release as indicating the members as individuals or a group would be available on a consultation basis to religious groups, labor and union organizations, industrial leaders, educational, political and law enforcement agencies. [redacted] has never been a Bureau informant and he has been affiliated with other anticommunist groups such as Democrats United for America, Inc., and Citizens United for America.

All offices should be alert to the background and objectives of this group. Be most circumspect in dealing with any former informants who seek advice as to membership and avoid endorsing the organization in any way whatsoever. Advise promptly of any situations involving this group which could lead to embarrassment to the Bureau inasmuch as the organization is composed of former Bureau security informants.

Mrs. Janet Morton -- Study group

568 San Antonio

Total attendance: 45

Reaction: This group was new to the communist threat and intensely stimulated by the information shared.

COMMENT: This series of lectures by Mr. Prussion has been invaluable in this area, enlightening the citizenry on the danger of communist activity. He has stimulated the formation of many study groups as a result. In the main, Mr. Prussion has not received ample contributions to make future programs of this sort possible. He is indeed most worthy of every consideration in the form of financial support.

Ex-Red Counter-Spy To Lecture Students

A former counter-spy will lecture tomorrow in San Rafael High School, sponsored by backers of the Louis Francis Amendment.

Karl Prussian of Los Gatos, who was a counter-spy against Communist groups for the Federal Bureau of Investigation, will describe his experience in a lecture starting at 8 p.m.

Prussian says he was a Communist Party member for 26 years, the last 12 of which he was actually working for the FBI, having become disenchanted with the Reds. (Under the Francis Amendment, he would be denied use of the high school for speaking because of his former Communist membership.)

See success for anti-Red measure

Anti-Communist Karl Prussion and Assemblyman Louis Francis, author of an anti-Communist measure which its backers hope to have on the June ballot, attracted about 130 people to a dinner meeting Saturday at Deer Park Tavern.

Prussion told how Communist cells operate, drawing upon his years of experience as a counter-agent for the FBI in the Communist Party.

Francis told the gathering that the anti-Communist control measure will qualify "without a doubt" for the June elections. At present, its backers are circulating petitions to qualify it as an initiative referendum. Some 500,000 signatures are needed to place it on the ballot.

The menace of communism in the U. S. — disclosed by a former member of the party — and what can be done to battle the threat in California — discussed by a legislator — highlighted the anti-communism rally held at the Corral de Tierra country club Saturday.

More than 200 people attended the session which featured talks by Karl Prussion, one-time Red party member and later an undercover agent for the FBI, and Assemblyman Louis Francis (R-San Mateo), author of the initiative constitutional amendment to curb subversive activities in California.

Prussion while painting a gloomy picture of the inroads made by communism into the nation's economic, political and social life, nevertheless predicted that "we will beat the Communist conspiracy" if we act now.

Assemblyman Francis in a lengthy speech outlined each section of his initiative proposal.

The proposal would bar Communists and other subversives from holding public offices or employment and would deny political party status to the Communists. The Communist party is defined as a world movement

with "front" organizations everywhere.

It would bar the use of public buildings for subversive purposes and would prohibit tax exemption for subversives.

The amendment also would require teachers and other employees of public institutions to answer Congressional and legislative committee inquiries concerning Communist affiliation and subversion. Employees who violate the requirement would be fired.

Francis reported that 420,000 signatures are required to get the initiative on the ballot. He said 200,000 already have been obtained and that the movement is "snowballing."

Mrs. K. M. Karye, chairman of the Monterey county unit of the Californians' Committee to Combat Communism, sponsors of the dinner, said that the response to pleas for help and finances at the meeting were good. She said she

had not yet evaluated the cards that were turned in but that she was pleased with the response.

She also announced that Richard Bennett of the Del Monte Properties company, had accepted the county vice chairmanship.

Mrs. Karye said that tapes were made of the Prussion and Francis speeches and are available to any organization desiring them. They may be reserved by telephoning the Salinas headquarters, HA 4-4872 or HA 4-2244, or the Monterey headquarters, FR 4-9588.

Stephen Maygar of Monterey was program chairman.

Those attending came from all parts of Monterey county and there also was a delegation from Santa Cruz county.

Pacific Union College Students Hear Prussion

ANGWIN — Karl Prussion, an ex-Communist and former counterspy for the Federal Bureau of Investigation addressed the students of Pacific Union College at an assembly.

He told of his experiences in the Communist school, and how he was taught that the end justifies the means which Communism must use to conquer the world. The American Communist owes his allegiance at all times to the Soviet Union. Prussion related how he infiltrated church organizations to set up Communist fronts.

Prussion joined the Communist party in 1933 while a student at Wayne University, Detroit, Mich. He led a strike to resist a tuition raise, and later found that the committee he headed was a Communist front. During this time he attended a Communist school where he learned tactics for insurrection, and became an active member of the party.

New Role

In 1947, in Mountain View, the FBI accepted Prussion as a counterspy, it was said. He worked in the Communist cells in that general area as a counterspy for 12 years. He became more and more concerned with the progress the Communists were making,

and felt that Americans were not combating Communism in an effective manner. He terminated his work with the FBI in 1959, and since then he has lectured extensively in his effort to "enlighten the public regarding the Soviet conspiracy to overthrow our government and way of life."

Prussion was the chief witness for the House Committee on Un-American Affairs in San Francisco during May, 1960. The meeting became so riotous that he finished his testimony in executive session in Washington, D. C.

"American can defeat Communism, and she must defeat Communism to survive," he stated. He advocates anti-Communist organizations of the citizens as the best way to combat the menace Communism presents to America and the world.

Gentlemen:

I would appreciate your verifying the fact that Mr. Karl Prussion is as he presents himself to be - an undercover agent for the F. B. I. from 1947 - 59 - working much of his card-carrying time in the Mountain View area.

I have no reason to doubt the information furnished by the various P. T. A's around this area regarding Mr. Prussion's qualifications to speak on the Communist menace, but I think it is every American's duty to verify these facts rather than to accept them outright, without making any effort to check on them with the proper, irrefutable sources, such as your organization.

Any information you are able to give me on the above will be appreciated.

Sincerely,

b6

If Mr. Prussion is indeed as he is represented, I think his talks and debates at the various high schools on the Peninsula will serve a very good purpose. My son, who attends San Carlos High School, went to one of these meetings and learned a good deal about the dangers of Communism. I find that most people are woefully uninformed on the subject.

Assemblyman Is a Red, Says Prussion

SAN FRANCISCO (UPI)—Karl Prussion, Los Altos, former undercover FBI agent, asserted Monday that a member of the Assembly is also a member of the Communist party.

But Prussion declined to identify the person at a hearing of the Assembly Committee on Constitutional Amendments.

He said he would not name the legislator "because of the complexity of the law." Information about the lawmaker is contained in state and congressional records he said.

Prussion was appearing in support of a constitutional amendment proposed by Assemblyman Louis Francis, R-San Mateo, which would specifically deny tax exemptions and public appointments to members of the Communist party.

Present law denies these privileges to members of organizations which advocate overthrow of the government. Francis said that by specifically naming the Communist party it would be easier to prosecute violators.

Undercover Agent Tells Workings Of Communist Party

Exchangeites Hear Behind Scenes Machinations Of Reds In America

A former member of the Communist party who became an undercover agent for the FBI gave a behind the scenes work program of the party in the United States to members of the Vallejo Exchange Club yesterday.

He was Karl Prussion, who appeared as a guest speaker at the club's weekly luncheon meeting at the Vallejo Country Club.

A member of the party for 26 years, Prussion declared that "today more than 1,000 Communists in the United States are receiving training in the Lenin school in Moscow.

The indoctrination of a member, he said, is long and tedious, but soon the member becomes totally dependent on his leaders.

"One finds himself living a lie," Prussion said. "He sees rigged

trials and the elimination of party members who make an effort to break away from Communism."

He said that every Communist in America is rigidly controlled by the Kremlin and must be prepared to sacrifice everything in order to further party interests.

Prussion advised his listeners that "we must take off our diplomatic relationships with the Communists to defeat them. We cannot sit down and reason with anti-Christians and hope to accomplish an accord."

"We should," he continued, "combine our own characteristics and then combine with all free countries of the world and defeat the Communists on every floor where their resolutions are presented."

He concluded with saying that Communists are not strong people, that they will back away when confronted with force."

Prussion was introduced by Hal Brooks, program chairman, while Club President Earl Landberg conducted the meeting.

'Tighten Laws On Commies'

Legislation to tighten controls on subversives was the subject of an Assembly interim committee hearing here today.

Assemblyman Louis Francis (R-San Mateo) is author of a proposed state constitutional amendment which would deny tax exemption to Communist or other subversive groups, and prohibit Communists from holding public office or public employment.

KARL PRUSSION, Los Altos, testified that "one of the most successful pieces of insidious work by the Communist Party has been the phony peace offensive."

Prussion, onetime FBI counterspy who operated in Communist circles, said one of the organizations that "mushroomed all over the U. S." after the 1949 World Peace Congress in Warsaw and the Stockholm Peace Appeal, was the Palo Alto Peace Club.

After it was declared subversive by the U. S. attorney general, it infiltrated religious groups, Prussion said.

He charged, supported by Francis, that present statutes make it almost impossible to prevent Communists from running for office.

BECAUSE OF the burden of proof required, law enforcement agencies are reluctant to make arrests or press for showdowns, he said.

Francis contended that tax exemptions granted to subversive groups are "an ironical expenditure of the people's tax dollars."

Chairman of the interim committee is Assemblyman Milton Marks (R-San Francisco).

Legislator a Red, Counterspy Says

*(But Won't
Name Him)*

A former Communist Party organizer and counterspy for the FBI testified yesterday that a member of the State Legislature is also a member of the Communist Party.

But Karl Prussion of Los Altos declined to identify the man for an Assembly Interim Committee.

The same committee also heard a San Jose State College engineering professor and a University of California teaching assistant deliver bitter indictments of what they termed Communist activity on the campuses.

RETIRED ADMIRAL

The San Jose State witness, retired Rear Admiral Edward S. Carmick, said that 150 professors in California's system of higher education "have affiliations that are subversive."

And Charles Fox, a UC graduate student and teaching assistant in speech, said the Communist situation at Berkeley is such that the conservative faculty members are intimidated and afraid to speak out against the "soft attitude toward Communism."

Fox, who is director of the Students Association Against Totalitarianism, said the Red activity even has infiltrated the fraternities.

CURB ON REDS

All were called as witnesses yesterday by Assem-

blyman Louis Francis of San Mateo who is seeking a State constitutional amendment that would deny Communist Party members the right to hold elected office, hold any public employment or receive a tax exemption.

The committee on constitutional amendments is headed by Assemblyman Milton Marks of San Francisco. The inquiry will continue today when the foes of the proposed amendments will have their inning.

Prussion's claim that a member of the Legislature is also a Communist brought instant reaction from the committee members. It had been Assemblyman Don A. Allen's question to the witness that brought out the accusation.

'PUBLIC RECORD'

Prussion was told it was his duty to convey the information to the proper authorities for action.

"The Attorney General's office does have this information," he insisted. "I did not give it to them but it is available to them through public documentation."

He declined to name the legislator "because of complexities of the law," he added.

He condemned college professors who say "Communism is a philosophy and that we must co-exist with it."

"This type of thinking is suicidal and the kiss of death," he insisted.

The San Jose State professor, who emphasized that he was not a spokesman for the institution but was appearing as an individual, said Francis' proposed amendment would

Hearing in S.F.

'A Red Is in The Legislature'

By Elmont Waite

Eleven witnesses at an Assembly committee hearing gave enthusiastic support here yesterday to an amendment to the State Constitution to bar Communists or other subversives from public payrolls.

And in the process, the witnesses also told the committee that:

- At least one member of the Legislature is a Communist (but did not name him).

- At least 150 professors in California colleges have "subversive" affiliations; and 30 San Jose State College teachers "violate academic freedom continually" to advance subversion. (None was named in either category.)

- An unspecified number of University of California professors are Communists or pro-Communist, in the speech, English, history, political science and economics departments. (None was named.)

The Constitutional amendment the Assembly interim committee was considering was proposed by Assemblyman Louis Francis (Rep-San Mateo). It would bar Communists or other subversives from holding any office or public job in California, and from obtaining any tax exemption.

Following Francis to the stand, Karl Prussion, former Communist and FBI "counter-spy," dropped his quiet bombshell about a Communist in the Legislature in response to a question.

He declined to name the legislator—who said he had been "identified" in past public testimony — because there's a question of proof.

The day's third witness, Rear Admiral Edward S. Carmick (USN, ret.) now a San Jose State College associate professor, classed 150 University of California professors as subversive.

Carmick also testified that at his own college, "I estimate that at least 30 of our teachers violate academic freedom continually," taking advantage of it to advance subversive ideology, "to attack our National goals...."

Asked later if he would identify any of the professors or teachers, he replied "I have nothing further to say."

Other witnesses later in the day included Charles Fox, UC associate in speech and head of the conservative Students Association Against Totalitarianism.

Fox testified that Mrs. Clinton Jencks, wife of a labor leader who had been an accused Communist but won freedom in the United States Supreme Court, and Ida Morgan, "who was secretary of the Alameda county Communist party," both worked at UC.

They were handling student questionnaires used in a personality testing program, Fox said, that would give subversives a firm hold on many of the answering students.

Clinton Jencks said last night that his wife "was not connected with any such program," and that Fox "is wrong on all counts, as usual." He added that he did not know Ida Morgan.

The hearing resumes today in the State Building at 10 a.m.

'Stung' Solon Questions Fund For Prussion

By HARRY FARRELL
News Political Writer

A mimeographed appeal for pledges to support Karl Prussion, controversial ex-Communist and former FBI counterspy who lives in Los Altos, stirred a political storm today.

Assemblyman Carl A. Britschgi (R-Redwood City), who was recently the subject of caustic comment in Prussion's paper "Heads Up," said he will seek a legislative inquiry into the solicitation.

The appeal for donations, dated last September, is signed by Mrs. Florence Dillinger, 1925 Byron St., Palo Alto, and is addressed to "Dear Fellow Members of the Fight for Fair Play for the U.S.A."

It begins:

"This is an invitation to become one of the Sponsors for Karl Prussion. A group of us have come to the conclusion that there is nothing we can do that will be more effective in promoting our 'cause'."

LECTURING NOW

The lengthy letter outlines Prussion's anti-Communist activity in the two years since he abandoned his pose as a Communist and his undercover work for the FBI in Communist ranks. Besides publishing his mimeographed paper, he has lectured widely on Communism. Mrs. Dillinger also says Prussion could write a book, work up anti-Communist classes, and the

like "if we subsidize him."

"In the two years since he has surfaced," she writes, "he has not had a regular job. People who have offered him jobs have received threatening phone calls and have had to retract. . . . So, some of us who see the work that does not get done, have decided to form a sponsor's committee, and pledge a monthly sum for a year at least, so his family can eat. . . . Our original aim is for 30 people to give \$20 a month. . . . Any sum, from \$50 monthly to \$5 will be wonderfully helpful. So you think this is a good idea. We think we can get these donations tax exempt — are working on it."

QUESTIONS MEETING

Britschgi, whom Prussion himself described today as a "good conservative Republican," was the subject of an item in the September edition of "Heads Up," titled "Britschgi Honor Red Frontier."

The item questioned why Britschgi attended a Los Angeles testimonial dinner for veteran Assembly Rules Committee Chairman Augustus Hawkins (D-Los Angeles).

Hawkins, one of the two Negroes in the State Legislature, was labeled in Prussion's paper as "Red Front Assemblyman 'Red Hawk' Gus Hawkins."

Today Britschgi, who had previously accused Prussion of "smear" tactics, observed, in connection with the Prussion subsidy appeal, "I certainly don't think he should have tax-free status to attack me."

Red 'Help' Alleged

BY JOE BIGHAM
Register Staff Writer

The actions of California Gov. Edmund G. Brown were described as helpful to the Communist party, and the political philosophy of President John F. Kennedy was likened to Communist ideology by a Napa Valley speaker Wednesday afternoon.

Karl Prussion, a former Communist who reformed and spied on the party for the Federal Bureau of Investigation for many years, spoke before three groups in Napa and St. Helena concerning the dangers of Communism internally to America.

Of the governor, Prussion said, "Gov. Brown is either mentally immature on the subject of Communism in California or he is openly collaborating with them. One is as bad as the other—you can take your choice."

Cites Example

As an example, Prussion cited an instance in which Gov. Brown commended a farmers' paper for its work. Prussion said the paper is communistic.

Of the President, Prussion said, "It's no secret, I'm sure, that President Kennedy is a Fabian Socialist. I find no difference between Fabian Socialism, Marxism and Communism. They all have as their goals autocratic government."

Prussion also cited an unwillingness by Atty. Gen. Stanley Mosk to investigate Communism in California. He decried an investigation of the John Birch Society by Mosk, saying that this was a "camouflage to cover up the needed investigation of Communists."

"If there was an investigation of Communism in this state," Prussion continued, "we would soon find out where the strength, the support, the power of the present adminis-

Karl Prussion, Communist threat to the United States is described.

tration comes from."

Infiltration Claimed

He noted that Communists have infiltrated Democratic clubs throughout the state.

Prussion said he is not a member of the John Birch Society.

From his 26 years as a member of the Communist Party, Prussion said he concluded "We in America are being threatened by vicious, subtle criminal conspiracy to our way of life. This danger lies primarily within the United States rather than outside."

He mentioned rigorous training in techniques of infiltration and insurrection undergone by new members and said discipline is so great that "the party members soon become ascetic to everything except Communist orders."

He added that "a Communist is active in our organizations for the purpose of attaining immediate Communist objectives."

Prussion forecast attempts will be made in this area before long to start police review

boards, which he called a tactic used to weaken the country's faith in its law enforcement agencies. "This has been an objective of the Communist party since I can remember," he stated. "Police review boards stifle the initiative of chiefs and ruin the morale of the officers."

He warned that "the United States is losing the fight against Communism because the free enterprise system has never been organized to fight Communism. Unopposed, they can't lose; opposed, we can defeat them."

Need Told

Prussion said Americans must combat Communist activity in politics, churches and clubs by countering their resolutions with facts showing the other side and proposals indicating the proper approach to problems.

He concluded by saying that America's strength lies in her way of life. "We have the strength of God, of love and of truth. If we apply this strength which is ours, we will defeat Communism not only in the United States, but throughout the world."

Prussion spoke before the Napa Rotary Club at the Plaza Hotel, then addressed a public meeting at the American Legion Building under sponsorship of Republican Women. Late in the afternoon he spoke at a public meeting at St. Helena High School.

[redacted] Portland 14, Oregon, telephone number
[redacted] telephonically contacted this office stating
he was calling long distance from Portland. He advised that
he was attempting to locate captioned individual and had
called him at Los Altos but received no answer.

b6
b7C

[redacted] stated that he was aware that PRUSSION had in the
past furnished information to the FBI and he felt that this
office might know PRUSSION's whereabouts. He further advised
that he is affiliated with the "Freedom Center" and PRUSSION
is to deliver some speeches for them and was the reason for his
wanting to contact him. [redacted] further mentioned that perhaps
it would be better if he contacted the Los Altos Police
Department and perhaps they could locate PRUSSION.

The writer suggested this might be a good source of
information.

Election loyalty oath bid fails in Sunnyvale

Anti-communism was debated at length and in some anger at a Sunnyvale City Council meeting Tuesday night.

All who spoke vouchsafed anti-Communist convictions. Verbal scraps arose over means of attacking communism at the local level.

Proposals that the city adopt ordinances requiring candidates for city offices to sign loyalty oaths, and to forbid Communist groups from meeting in public buildings were downed by 4 to 2 council votes.

The evening started quietly with City Attorney Frank Gillio's explanation that the city would have to write its own election code if it were to require a loyalty oath from candidates.

STATE LAW

Gillio said the city now runs

its elections under state law — which requires no loyalty oath until one elected is sworn into office. Change from state to municipal election law would be costly and lengthy, he said. Gillio added that if the city adopted its own election code, it might be overturned in a court test.

Councilman Mark Russell asked if the city could "just pick the state code and add a paragraph?"

Gillio said, "It would be subject to attack, and somebody responsible would undoubtedly attack."

Councilman C. Robert Brown, who earlier requested the opinion on loyalty oaths, termed the Communist menace in the U.S. "bigger than the Democratic party or the Republican Party," and urged adoption of a city election code.

Brown held that signing of a loyalty oath "would prevent Communists

from campaigning and keep them from spreading their insidious propaganda" during Sunnyvale elections. He again urged a vote on the oath proposal.

Gillio warned that such action would be "against the trend of

Former Communist To Speak Tomorrow

A former Communist and FBI agent will give a talk entitled "Inside the Communist Conspiracy in California, Monday in Santa Rosa.

Karl Prussion will speak at 8 p.m. at the Flamingo Hotel.

The Montgomery Village Optimist Club, which is sponsoring the free, public meeting, says Mr. Prussion's talk "is not for the timid."

"Mr. Prussion pulls no punches; he cites names, places, and instances of Red subversion."

A question-and-answer period will follow the talk.

Persons are urged, "Bring your tape recorders."

Mr. Prussion joined the Communist Party while a student at

HOLLAND ROBERTS
IS - C

On 8/25/61, Former SF 1740-S advised that he has publicly criticized Attorney General MOSK for his failure to prosecute HOLLAND ROBERTS as a violator in connection with his having signed a non-communist oath as a candidate for public office in California. He said he had received a letter from Attorney General MOSK telling him that MOSK's office is not the agency responsible for prosecution in matters of this type. In this letter MOSK told Former SF 1740-S that he has referred his statements to the appropriate District Attorneys in California Districts having jurisdiction in the individual cases. He said that he has had a communication from LOUIS BERGNA, District Attorney, Santa Clara County, concerning HOLLAND ROBERTS and that they had arranged a tentative appointment for the first week in September to discuss the ROBERTS case.

Former SF 1740-S explained that he did not plan any action against MOSK, however, he had originally contemplated petitioning for impeachment of MOSK for failure to perform his duties.

Former SF 1740-S was again contacted on 9/19/61. He said that an investigator from BERGNA's office had called on him on about 9/12/61, and had received Former SF 1740-S' statements concerning the CP membership of ROBERTS at the time he took the non-communist oath. He had also pointed out to the investigator that in HCUA hearings in San Francisco another former FBI undercover Agent had identified ROBERTS as a CP member and the investigator assured Former SF 1740-S that he would contact that individual. Former SF 1740-S could not immediately recall the name of this other witness. He said he did not believe prosecution of ROBERTS would be forthcoming since he believed that the political ramifications of the matter would prevent prosecution. He said, however, that he has offered his services as a witness in any action against ROBERTS.

FORMER SF 1740-S

On 9/19/61, LOUIS BERGNA, District Attorney of Santa Clara County, called SAC PRICE regarding the fact that KARL PRUSSIAN was going to file a complaint against Dr. HOLLAND ROBERTS because of HOLLAND ROBERT's alleged CP membership at the time of his candidacy for an elective office in the State of California.

BERGNA inquired if PRUSSIAN had been an informant for us. Mr. PRICE informed BERGNA that PRUSSIAN had been an informant for the FBI; that he was paid for his services; that at the time PRUSSIAN decided that he no longer wished to keep his relationship confidential with this Office, his informant services were terminated. PRICE also advised him that during the time PRUSSIAN was an informant his information was found to be accurate.

the entire evening was taken up with the discussion about the decision of the Supreme Court, nothing was finalized - Doris Dawson said that she had contacted [REDACTED] and asked him if the time came would he defend her, she told him that she is a party member. She said that he said he would. Some one suggested that maybe some of the rank & file would be picked up for purposes of intimidation. Mary Wilson said that we do not have to worry about Karl Prussion as he has been out of the party for more than a year. The discussion ended with Elizabeth Nicholas saying that the National Committee was meeting now to discuss the problem and that [REDACTED] will be back on July 5th to discuss it with the district committee. So the next club meeting is July 12th at the home of Doris Dawson - if there are no changes.

SUBJECT: COMMITTEE OF LOYAL AMERICANS

At Aptos, California on June 9, 1961:

[REDACTED] advised that she is the chairman of the Central Santa Cruz County chapter of the above organization. This organization was started by KARL PRUSSIAN and [REDACTED], a member of the United States Navy stationed at Moffett Field. She stated that her group meets weekly at the homes of the members and is organized for the purpose of "fighting communism". [REDACTED] stated that she is a member of the Aptos school board and lives at [REDACTED] Aptos, California. Her husband operates [REDACTED] at [REDACTED] Aptos, California.

[REDACTED] advised that she contacted the FBI because her group was concerned about a meeting sponsored by the National Guardian to be held at Camp Monte Toyon, near Aptos on the weekend of June 16, 1961. [REDACTED] advised that she and KARL PRUSSIAN contacted Mrs. [REDACTED], manager of the camp on June 2, 1961. [REDACTED] appeared surprised when informed that the meeting was possibly subversive. She indicated that there was not much that she could do since the deposit had already been accepted to permit the group to meet as scheduled.

[REDACTED] advised that she has also contacted [REDACTED] of the Aptos Methodist Church, who lives at [REDACTED] Aptos, California. He is on the board of directors of the Camp Monte Toyon. He stated that the camp is the property of a group of Methodists and the Methodist Church does not control the camp except through the board of directors. [REDACTED] did not indicate what further action if any she intended to take.

[redacted] indicated that in many ways he finds the aims and programs of the John Birch Society to be very much in keeping with his own ideas. He stated that he is not a member of the Birch Society and that he has not always agreed with some of the allegations of the Birch Society concerning communists in Government, but that basically he felt this organization was following a course of action which could assist in ridding the world of communism. He specifically took exception to the recent publicity, and in his opinion censure, of General WALKER, U. S. Army, who had recently been relieved of his assignment in Germany in connection with the issuance of John Birch Society literature to personnel in his command. SCHMITT stated that it was a sorry day when a patriot was publicly criticized for following a patriotic course of action.

He further indicated his complete support of the FBI, recognizing it as one of the last bulwarks against communism in the U.S. [redacted] stated that his cooperation in any matter in which the Bureau had an interest would always willingly be given.

On June 13, 1961, [redacted] was interviewed at his residence, [redacted] Sunnyvale, California.

[redacted] frankly admitted that in recent past he has been outspoken concerning the need to alert the U. S. people and Government to a course of positive action against world communism. He stated that he "despises the liberal mind," which he feels presently dominates all thinking in the U. S. Department of State and formulates U. S. foreign policy. [redacted] stated that it is his contention that these individuals are incapable of recognizing the continuing encirclement of free nations throughout the world by the communists and made specific reference to the situation in Laos and Cuba. [redacted] stated, "You can't negotiate with KHRUSHCHEV and the State Department should be swept out."

b6
b7C

In this regard, [redacted] stated that in his opinion the U.S. has two possibilities in combatting world-wide communism. One, to establish a foreign policy which in the eyes of communists everywhere will be strong and resolute. He said that the U. S. must re-establish itself as "stating a position and then standing by the position, even at the risk of war." At this point [redacted] made specific reference to action taken by former Secretary of State DULLES regarding Formosa and Lebanon and said that these actions had been the only positive action taken by the U. S. against communism in recent years. [redacted] stated that if the U.S. Government can not be induced to follow this type action, to which he referred to as "brinkmanship," then the second alternative is a preventive war.

RE: [REDACTED]

Concerning this position, [REDACTED] stated that it was his opinion that if the U. S. Government would not of its own volition engage in a preventive war, then it would be "the duty" for individual citizens to take action to provoke a war with Russia. [REDACTED] noted that he has discussed these ideas with various individuals and has expressed the opinion that such action by a group of "dedicated patriots" could succeed. [REDACTED] related that among ways he has suggested such action could be brought about would be by taking over a missile installation already on target for Russia and releasing the missile. [REDACTED] said that he is aware such a plan would necessitate the participation of numerous qualified individuals. He made reference to the fact that recent publicity regarding Thor missile installations indicated that the missiles are ultimately controlled by "two keys" and that it would obviously be necessary to include individuals having access to the keys in such an undertaking. [REDACTED] stated that he is not acquainted with any individuals, civilian or military, presently having access to the keys, but that he is convinced that such an endeavor, if properly planned, could succeed.

[REDACTED] noted that any such program would necessitate considerable financing and he stated that he has generally discussed with various individuals ways and means by which such financing could be accomplished. [REDACTED] noted that he considers Nationalist China to be a logical source of financing in connection with any action taken against world communism. He said that he has discussed with a number of individuals the possibility of enlisting the support of CHIANG KAI-SHEK in this regard, but that he has never taken any positive action in connection thereto. [REDACTED] noted that these matters have only been topics of discussion, that they are theoretical, and that at no time has he ever endeavored to raise funds for such a project, nor has he ever attempted to organize any group with the purpose of provoking a war with Soviet Russia.

RE: [REDACTED]

b6
b7C

During the interview [REDACTED] volunteered that it was "insensible" that the U.S. or any of the free world nations would give assistance of any kind to communist nations. [REDACTED] specifically cited the grain agreements between Canada and Red China and tractors for Cuba as being programs in which the U.S. is unwittingly furthering the extension of world communism. [REDACTED] said, "You don't feed your enemies in a war." He advised that he has discussed on numerous occasions the possibility of blowing up grain supplies and grain ships in Canada destined for Red China. At this point he stated that if he had the power to press a button and blow up all the Canadian ships carrying Chinese grain he would do so without a moment's hesitation.

[REDACTED] stated that at no time has he ever, or would he ever, consider any act of sabotage against the U.S. He said, "We need everything we have."

b6
b7C

During the interview [REDACTED] exhibited a vehement attitude toward the dangers of world communism. He said that if the time ever came that world communism took over the U.S. he would without hesitation destroy his family and himself. He stated he "had four bullets for his two children, wife and self."

b6
b7C

[REDACTED] continually stated that he felt very strongly concerning this matter and that it was his hope that the U. S. Government would recognize that the only way to fight world communism was the establishment of a strong resolute position against it. He stated that he was convinced that such an attitude on the part of the U.S. would be successful and could be accomplished without war, but that if the U.S. did not re-evaluate its position, then in his opinion a preventive war, which he foresaw as a victory for the free world, would be the only alternative.

b6
b7C

During the course of the interview [REDACTED] proudly displayed many copies of the May 18, 1961, Volume 107, Congressional Record. [REDACTED] pointed out that Congressman CHARLES GUBSER, 10th Congressional District of California, had inserted in full an article prepared by

Former SF 1740-S (KARL PRUSSIAN), advised today that [redacted] and [redacted] Baptist Minister of SF will debate in Fresno on 5/2/61 on the Film "Operation Abolition". He said [redacted] is an effective speaker in defense of the film. PRUSSIAN is to speak following [redacted] and this is to be a surprise for [redacted]. PRUSSIAN will make a plea for funds for "Youth For Christ" which he considers a worthy anti-Communist organization.

PRUSSIAN is a former paid Security Informant who quit to propagandize openly against the Party. PRUSSIAN was a paid informant of this office from 11/49 to 7/58. He has attacked the democratic Party as Communist infiltrated and has made many enemies. Has associated himself with an organization "Free Men Against Communism" about which we know nothing derogatory, and is now publishing a little pamphlet "Heads Up" which attacks and exposes Communism.

PRUSSIAN has testified openly before HCUA naming names. So far he has been factual in his public statements and testimony. PRUSSIAN is a resident of Los Altos, Calif, and self employed as a contractor. [redacted] has been critical of Bureau's security investigators, HCUA, and has generally exhibited a left wing, pro-Communist bias.

b6

YR To Hear Undercover FBI Agent

BURLINGAME—An FBI counterspy who spent 12 years as an undercover agent posing as a member of the Communist Party will be guest speaker at tonight's meeting of the Tri-City Young Republican Club.

Karl Prussian, who testified in the hearings before the House Un-American Activities Committee in San Francisco and in Washington, will address the club at 8 p.m. in the Burlingame City Council chambers.

The meeting is open to the public.

Prussian joined a Communist-front organization in 1933, but broke with it in 1938. At the urging of the FBI, he rejoined the party in 1947 and for 12 years presented weekly reports on Communist activities.

He voluntarily disclosed his double life in 1959 because he was very near to being exposed.

True Story of City Hall Riots

Archie Brown—'A Communist and Proud of It'

Karl Prussion and Archie Brown may or may not know each other.

But they have nothing but contempt for each other. Brown, 49, a longshoreman, has been an outspoken Communist for 25 years. He still is.

WILLOUGHBY

Prussion, 51, a building materials salesman, was a Communist for 26 years, the last nine for the FBI. He is now an outspoken anti-Communist.

They were the protagonists on Black Friday, 1960.

Prussion was the chief friendly witness at the House Un-American Activities Committee hearing at City Hall. Brown was the chief unfriendly witness.

Eight months after May 13, 1960, News-Call Bulletin reporter Wes Willoughby interviewed them on successive days, asking, on several occasions, the same questions of each.

"I am a Communist and proud of it," says Archie Brown.

"I am not a foreign agent of Russia or anybody. I feel I am a patriotic American.

"I THINK Socialism would be a benefit for the United States and I am working for it."

Archie Brown, a man of rugged visage, large, hard hands and soft blue eyes, was born in Sioux City of a large family.

His father was a farmer, then a teamster when the family moved from the farm. Brown came to the Bay Area at 13, the rest of the family came later.

Karl Prussion- Outspoken Anti-Communist

"A few years ago I was a successful builder, with assets of more than \$200,000," says Karl Prussion.

"Now I'm making about \$100 a month and things are tough.

"The whole Communist conspiracy was responsible for my bankruptcy. But I'm happier than I ever was."

Karl Prussion, short, grey-ing and neatly-clothed, looks more like a dignified community pillar than an ex-revolutionary or counterspy.

A NATIVE of New York, he joined the Communist Party in 1933 while a senior mechanical engineering student at Wayne University in Detroit.

Prussion was a builder of tract homes on the Peninsula in the 50's, and, at the same time, an FBI counterspy within the Communist Party.

He lives in Los Altos with his wife and two children, but, he says, has been forced by harassment to move five times since he unmasked himself on Aug. 12, 1959 at a Lions Club meeting in Oakland.

Prussion named some 40 residents of the Bay Area as Communists at the May committee hearings in San Francisco and at a special session in Washington the next month.

SIX OF THE 40 were subpoenaed and refused to testify at City Hall. The others, Prussion says, will be subpoenaed the next time the committee comes to town.

Impassioned Panel Argues Over HCUA

Excited Overflow Crowd Views Film of SF Riots

BY JERRY RANKIN
Associate Editor

The House Committee on Un-American Activities was alternately blasted and praised by an impassioned four-man panel before an equally excited overflow throng in Cubberley Auditorium last night.

Students jammed into every dusty corner of the auditorium and standing in the lobby and corridors outside, first viewed the controversial HCUA film "Operation Abolition" and then listened for an hour and 20 minutes as the panel members took turns attacking or defending the committee.

UNIVERSITY of California Philosophy Professor John Searle and Stanford Daily Editor Barry Greenberg took the HCUA to task on three main points:

- It is unconstitutional.
- It destroys civil liberties.
- Its existence and methods are of "immense help" to communism.

KARL Prussion, a former Communist and later an FBI counter-spy, and Wilhelm Schmitt, an en-

KZSU, 880 kc, will present a tape of the debate tonight at 8 p.m.

ginger working on Lockheed Corp's Polaris project, defended the committee, ably moderated by Professor William McCord, on these main points:

- It is necessary for the HCUA to exist so it can root out and publically expose Communist techniques and Communists.

- The HCUA serves a legitimate purpose by proposing to the House legislation to fight communism, and in helping that legislation's passage.

- The menace of communism to the United States is "extremely critical" and only through "grass roots" organizations and groups such as the HCUA can Americans successfully combat the Red danger.

FOLLOWING the film's showing, Greenberg opened discussion by citing nine "documented inaccuracies and distortions" appearing in the film or its sound track.

He called the movie a "typical display of disregard for honesty and ethics on the part of the HCUA" and said this "provides one more reason why this body should be abolished!"

Prussion then replied that he and Schmitt weren't debating the HCUA's film or methods but instead were "urging that the investigative powers of (the committee) be strengthened," because it is one effective way of fighting communism.

HE DECLARED that his more than 10 years as a Communist convinced him that (1) it is "totally wrong" to discuss communism as an ideology, philosophy or political party—that the Red movement in the U.S. is "a conspiracy to overthrow the government by violence" and nothing else; (2) the Communists have total contempt for the laws of the nation but will use them to the utmost to overthrow the government; and (3) U.S. Communists will work on either one or both sides of an issue if they are directed to do so by their Kremlin bosses.

HE SAID that U.S. Communists are workers for "Red Fascism" exclusively, and the real menace to the nation is the "Communist conspirators and their apologists."

Searle, who participated in the demonstrations last May at San Francisco's City Hall when "Censorship Abolition" was made, hit at the HCUA for employing the "multiple untruth" technique in the film.

During the question period later, in referring to what he called the smearing of the lives of those summoned before the HCUA, Searle also asked whether a democratic government has the right to prosecute those who may hold dissenting or even anti-democratic views, if those persons have not broken any laws.

SCHMITT at one point told his audience—which hissed, clapped, booed and otherwise burst forth regularly during the movie and discussion—in referring to some statements just made by Searle, that it had "just seen a remarkable demonstration of Communist technique."

Schmitt, basing much of his

HCUA . . .

(Continued from page 1)

argument on religious grounds, also noted that by "simple, logical" reasoning, it should be obvious that since Communists want to destroy civil liberties and since they desire to do away with the HCUA, that retention of the HCUA "is the course of action we should follow to retain our civil liberties."

Prussion concluded the discussion by declaring that the Communist danger to this country is "extremely critical" and that Americans will lose their freedom "within four years" if citizens do not organize and fight the Red danger wherever it "rears its ugly head."

The auditorium began filling with students about 6:15 and by 6:50 was jammed to capacity, with the audience lapping into and almost filling the Cubberley lobby and milling in the corridors.

DURING the film and discussion, some stood on chairs at the doors and peered in over the heads of those standing in back and extending about a fifth of the way down the two main aisles.

The film was shown a second time—at 10 p.m.—and the auditorium was quickly packed to the limit, with many again unable to get in.

Operation Abolition Boos, cheers greet film

By BOB SLAYMAN

Operation Abolition—controversial film dealing with student demonstrations at last May's House Committee on Un-American Activities hearings in San Francisco—attracted a packed house and mixed reaction last night at Stanford.

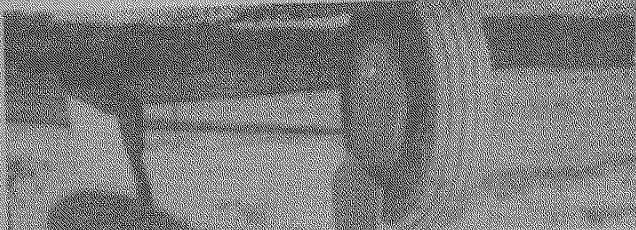

In fact, it attracted 1,000 packed houses. The 500-seat Cubberley Auditorium was filled 40 minutes before the start of the film, and hundreds waited outside during the two-hour film and panel discussion for a chance to see the late show.

STUDENT POLICE handled the huge crowd without incident.

The film and subsequent comments by opposing panelists were punctuated by sharp bursts of applause, loud laughter and occasional hisses.

The film has been billed by the House committee and others as an illustration of how Communist agitators and organizers successfully incite Bay Area students to riot at the city hall hearings. An assessment by F.B.I. Director J. Edgar Hoover is included.

(AP Wirephoto)

California philosophy staff attacked it as a distortion.

"The film is another indication of the committee's disregard for honesty and ethics," Greenberg declared.

Miss Nance To Head Ladies' Club

Miss Valerie Nance will direct activities of the Women's committee of the Pacific Service Employees association for the coming year. The new chairman was introduced at last week's committee meeting by Miss Betty Bashaw, outgoing chairman.

Women attending the committee meeting observed a moment of silence in memory of Mr. T. Emmet Ward, local division manager who died Nov. 7.

Major program item was a beauty demonstration on the latest hair style and beauty preparations. Mrs. James Craig, beauty operator from Watsonville, and Mrs. June Longley, beauty counselor, presented the demonstration.

Also included on the evening's program was the showing of the film, "Operation Abolition," which was followed by a talk from Mr. Karl Prussion. Mr. Prussion, who was once a member of the FBI working in the Communist party, is now a member of the Young Men Against Communism organization.

Mrs. James Gould was chairman for the evening.

Speaker Urges Grass Roots Fight Against Communism

Grass roots combat against Communism must be waged by the American people, Mr. Karl Prussion, former Communist and informer for the FBI, told the Salinas Woman's club Friday afternoon.

Guest speaker at the club's October meeting, Mr. Prussion called for an all-out organized effort against the Communists in the United States, whose influence, he claims, is greater than ever.

Mr. Prussion joined the party in 1933 as a student at Wayne university in Detroit.

Disillusioned with Communism, he became an FBI informer. He said that he later left the FBI because he feels the manner in which the United States is now fighting Communism is completely inadequate.

After showing the documentary film, "Operation Abolition," depicting the San Francisco riots during the May House committee on un-American activities hearings, the speaker described in detail how Communists in this country have infiltrated economic, social and political institutions.

He was introduced to the assembled women by Mrs. Jack Patton, program chairman, following the luncheon. Luncheon chairmen for the afternoon were Mrs. Milton Auker and Mrs. Chester Dudley.

Mrs. Charles Melander, a past president of the Woman's Club, was among the guests. Mrs. W. D. Meyenberg introduced the following new members: the Mmes. L. E. Chaney, Harry Ekelin, C. G. Krebs, Mitchell Bedford and Robert Hamilton.

Project reports included that of Mrs. James Jeffery on the successful wine tasting party held at the clubhouse earlier this month. Mrs. Frank J. Schonfelder announced that the bridge tournament will start in January. Interested women may contact either her or Mrs. Bruce Church for further details.

Prussion Sees Return Of Probe Panel

Admitted ex-Communist Karl Prussion said Thursday night that the House Committee on Un-American Activities plans a return trip to the Bay Area.

"And when they come back," he added, "I hope they come to San Jose."

Prussion, who claims he worked for the FBI as an undercover man, addressed a quiet crowd of nearly 200 students at San Jose State College. He also showed the films "Operation Abolition," a government movie depicting the alleged Communist inspired "riots" in San Francisco last May.

Prussion urged members of his audience to fight Communism through a "grass roots" organization. He said the Communists menace in America had become critical and added:

"And if this situation is not remedied, we in America will have our freedom lost in four years."

Prussion's anti-Communist talk, which he has delivered to numerous organizations throughout the Bay

Area, brought only a smattering of emotional response. The speaker was roundly applauded at one point when he said, "We should be proud of the FBI."

However, during the showing of "Operation Abolition" the audience burst into applause when a witness defied the committee with the words:

"If you think I'll co-operate with you, you are insane."

Prussion, in answer to a question, said he was a menace to the Communist party. Near the end of the question period he offered

his services to teach a "Communist Aggression" course at San Jose State College "if the Board of Regents would permit me to do so."

On 9/27/60, [REDACTED]
Redwood City, California, furnished information concerning
formation of the captioned organization. He describes that
it is an organization of American patriots combating Communism
by anti-propaganda. Case file is being opened on this organization.

[REDACTED] advised that on 9/19/60 at Monterey, California,
the organization showed the film "Operation Abolition". He
said that at showing of the film, which was advertised in the
local papers, unknown individuals circulated the following
leaflets:

b6
b7C

1. An Analysis of the HCUA Propaganda Film "Operation Abolition" revised by the Bay Area Student Committee for the Abolition of the HCUA.
2. A leaflet captioned "An Analysis of the HCUA Propaganda Film Operation Abolition" revised issue by Students for Civil Liberties Union at the University of California, Berkeley.
3. A leaflet captioned "Voices of Conscience and Resistance." It bore the stamp of Bay Area Student Committee for the Abolition of the HCUA. These documents are being routed to 100-37080.

[REDACTED] dated and initialed the documents but said
he is not competent to introduce them because they were given
to them by another member of the committee whom he cannot
identify.

FREE MEN AGAINST COMMUNISM
INFORMATION CONCERNING

Remylet, 9/29/60, captioned KARL PRUSSION, Former
SF 1740-S. Relet described formation of a patriotic organization
to combat Communism by counter-propaganda.

On 9/26/60, [redacted] California, who in the past has cooperated in
the investigation of [redacted] Labor Management and Disclosure
Act case, furnished the following:

The organization described in relet has now adopted
the name Free Men Against Communism. [redacted] of
Los Altos, California, and BRUCE BARBER, retired former head
of INS at San Francisco, during the week ending 10/4/60, would
sign registration forms in behalf of this organization record-
ing its formation with the Secretary of State of California.
[redacted] listed the purposes of the organization as described in
relet and emphatically stated that this organization will
conduct no security investigations. He said its membership
will be encouraged to furnish any information regarding Communists
or Communist organizations to the FBI.

[redacted] on this occasion furnished the office three
items of literature disseminated by Communists or Communist
sympathizers at a recent showing of the film "Operation Abolition"
at Monterey, California, 9/19/60.

[redacted] advised that he visited FBI Headquarters in
Washington, D.C., in September 1960 and spoke with a Bureau
official regarding the above organization. He could not recall
the name of that official but was grateful for the courtesy
and cooperation shown him on that occasion. He expressed
himself as a great admirer of Director HOOVER and of the FBI.

[redacted] further stated that former FBI confidential
informant KARL PRUSSION is an active member of this organization

and will be speaking under its auspices on many occasions. He said that a copy of the film "Operation Abolition" has been purchased by the organization and it will be shown as frequently as bookings can be obtained.

[redacted] said one of the undertakings in which the organization is presently engaged in is pressuring universities in the area through their alumni groups against employment of Communist teachers and the signing of Communist-type petitions by faculty members. He said his organization is asking alumni contributors to advise universities they will withhold their contributions if undesirable situations are not corrected.

On 9/20/60, [REDACTED]
[REDACTED] Stanford University, Palo Alto, California, advised that University officials were concerned over the activities of the above-captioned in connection with his exhibition of the film, "OPERATION ABOLITION," before various groups in the Palo Alto area. GLOVER related that the University was not concerned with the exhibition of the film, as such, but was concerned over the commentary and editorializing which PRUSSIAN gave in connection with the film. The inference of PRUSSIAN's remarks were that faculty members at Stanford University had been in attendance at the hearings of the HCUA in San Francisco, and/or had incited Stanford students to riot in connection with the above hearings. PRUSSIAN also reportedly alludes to the fact that HOLLAND ROBERTS, a former Stanford Professor, was an example of communist infiltration among faculty members at Stanford University.

b6

b7C

[REDACTED] said that the above matter had been discussed with attorneys representing Stanford, and consideration was being given to filing suit against PRUSSIAN for his aspersions regarding Stanford University.

[REDACTED] stated that the administration at Stanford was very reluctant to file suit against PRUSSIAN in this regard, since he felt that undoubtedly their motivations in so doing would be misunderstood and might in itself indicate that Stanford University was opposed to the HCUA hearings. [REDACTED] commented, however, that the University felt a necessity to defend itself against charges made by PRUSSIAN. [REDACTED] also commented that PRUSSIAN, in his appearances before various groups, such as the American Legion meetings, had suggested participation on the part of the general public in conducting security investigations. He thought that this, too, was not desirable since he felt that investigations of this type should be conducted by experienced, appropriately-trained, personnel of responsible governmental agencies.

On 9/29/60, [] further advised that he understood that BILL SULLIVAN, from the Bureau, was to address the student body at Stanford University on November 21 or 22, 1960. [] said that he was aware that feeling among students at Stanford was running high regarding the above activities of PRUSSIAN, and the assertion that a large number of Stanford students had participated in the riots. [] stated that it was also possible that among the student body at Stanford there were students who were in sympathy with the riots.

b6
b7C

[] related that he would be in Europe from October 1 to the latter part of October 1960, and that upon his return he wished to confer with the Writer relative to the visit of SULLIVAN to the Stanford Campus. [] suggested further that he wished to meet with SULLIVAN prior to the latter's appearance at Stanford University and enlighten him as to the local situation at Stanford, so that he would not appear before the student body unaware of the possible feelings of the student body.

RECOMMENDATION: The above is submitted for information, and upon [] return from Europe further contact will be had with him relative to this matter.

150 Attend Riot Movies

"Operation Abolition," a film of the riots at the recent House Un-American Activities committee hearing in San Francisco, was shown to a packed house at the American Legion hall on West Laurel drive last night. Some 150 Legionnaires and friends attended at the Post 31 hall.

Karl Prussion, a former Communist party member and undercover FBI agent, discussed the methods by which Communists are trying to discredit the committee and FBI work.

He named numerous persons in Santa Clara county who, he charged, are Communists. Prussion, who once lived in Carmel, did much of his FBI work in Santa Clara county.

He was introduced by William F. Bryan, chairman of the post's legislative committee.

The film is a 45-minute documentary of the riots, which, Prussion said, were inspired by professional Communists who used younger persons as dupes.

Reurairtel 8/23/60, requesting urgent reply regarding captioned individual.

PRUSSION was paid informant of this office from 11/49 to 7/58, at which time he was discontinued for disclosing his confidential relationship with this Bureau to a newspaper man in connection with a book that he had planned to write. Since his discontinuance as an informant he has made speeches in the San Francisco area, blasting the Communist Party and attempting to point out to the public the dangers of Communism. He appeared at a television show in Los Angeles with a hood over his head, during which time he made certain allegations regarding the influence of the CP.

In July, 1960, he testified for the Government in San Francisco at the HCUA Hearings, and in August, 1960, he has been criticizing the Democratic Party for the fact that certain Democrats are also Communists and asserted that the Democratic platform developed at the Democratic Party Convention appeared to be a whole series of resolutions which could have been written by KHRUSHCHEV himself.

He is presently in extremely difficult financial straits, is currently a defendant in a law suit, and has not been able to find suitable employment during the past year.

The information that PRUSSION furnished was reliable. There is no instance of his ever furnishing false information to this office. He has an extremely bad memory for details and has repeatedly attempted to secure copies of his previous reports in order that he could be more factual in his public appearances as a speaker. Of course, these requests have been denied. He has been warned repeatedly prior to the time he was discontinued to be factual in any public statements he makes. However, from newspaper accounts that have been received in this office from some recent appearances, it would appear that he may be deviating from the actual truth, in that he has in particular been making statements provoking controversy within the Democratic Party, the most recent of which appeared in the 8/19/60 edition of the "Palo Alto Times," wherein he rapped the California Attorney General (a Democrat) for not prosecuting three persons who were candidates for public office and who were, according to PRUSSION, Communists.

The Bureau has been advised of the above.

Los Altos Legion Heeds Prussion; Anti-Red Unit Set

LOS ALTOS—The American Legion post here has formed an anti-Communist organization at the urging of Karl Prussion, reportedly an FBI undercover informer for 12 years.

Prussion, a resident of Los Altos, made a speech before more than 250 persons in Legion Hall in Los Altos to urge the Legionnaires to fight communism.

He said they needed to "build an organization of strategy and tactics" but some Legionnaires expressed doubt about the proposal.

One Legionnaire, Jack Francis, said that the purpose of the group suggested by Prussion is "to form a spy organization to pry into the personal opinions and lives of individuals."

Francis contended such an organization would be an attempt "to fight com-

munist with the same methods used by Communists."

But Bill Newman, commander of the Los Altos Legion post, refuted the charges made by Francis.

"The organization's purpose is not to pry into personal lives, not to inform on individuals and not to beat the bushes or peek over back fences," Newman said.

The anti-communist group, Newman said, will be a "grass roots" movement to combat the flood of Communist and pro-Communist literature with anti-Communist literature.

Newman said the group also intends to "lobby for the anti-Communist views" with elected representatives and organizations.

"If a bill is introduced to provoke sympathy for Communists, we will combat it with a flood of literature and information," he said.
